

Planning for the

in Transition

A two day

program of information and workshops highlighting the many issues, solutions and prospects that children, parents and carers face around the transition from childhood, and education, into adulthood when eligibility for services and assessment change considerably.

There is a need to understand these changes and what alternative services may look like.

Planning for the future of our children needs to start at an early age - a year from now you may wish that you had started today!

Join the

County Carers Group

23rd & 24th February 2017

Elliot Room. Bishop Grosseteste University College. Lincoln

10am—3.30 pm

for a **FREE** day of information and advice for parents/carers & professionals - **BOOK EITHER or BOTH of these days**. A light lunch will be provided
