# Learning Disability Community Service

We are hoping to employ people with learning disabilities as Experts by Experience within our service

We have bank hours available for people who have a learning disability and have used our services previously to use their skills and knowledge to help us to provide a good service for people with learning disabilities

There could potentially be 4 posts available in each hub area of our learning disability service in Lincolnshire

We are looking at 4 main roles for our experts by experience;

- To be involved with recruitment of new staff within our service
- To be involved with local groups e.g. Learning Disability Partnership
- To be able to share their experiences of our service and tell their story as part of staff training
- To be involved in co-production and presenting of health and wellbeing groups in their local area

We have information we can send to potential candidates and we will be having coffee and chat events in each hub area:

Lincoln West  
Friday 27<sup>th</sup> October  
10am – 2pm  
Unit 5  
St Georges's Site  
Lincoln  
LN1 1FS
